GENERAL DESCRIPTION OF CLASS

The purpose of the class is to supervise, manage, and coordinate all operations of assigned engineering section. The class is responsible for planning and managing engineering section activities, supervising subordinate staff, developing policies and procedures, preparing long-range goals, serving as liaison, and coordinating and overseeing related customer service efforts. The class works within broad policy and organization guidelines; plans and implements projects; reports progress of major activities to executive level administrators through reports and conferences.

TYPICAL TASKS

- Manages all engineering operations and activities in assigned section in order to meet the goals of the City Council and City Manager and to serve as liaison between City management and engineering professional and technical staff.
- Oversees engineering functions such as the design review process, underground utility damage prevention, traffic engineering and highway improvement programs, capital improvement project design, utility improvements, connection fee determination, cross connection control, construction management, customer service efforts, and other engineering programs.
- Develops and oversees the implementation of policies and procedures to ensure flow of operations and accomplishment of goals.
- Prepares, approves, evaluates, and maintains related engineering reports and other information such as specifications, project invoices, proposals, grant applications, permits, and/or budgets.
- Reviews recommendations submitted by staff for consistency and conformance with established engineering principles and practices and conformance to local ordinances.
- Investigates and responds to inquiries and concerns from contractors, the general public, and other organizational agencies.
- Coordinates project implementation by interacting with the various parties involved and makes recommendations for engineering and project success.
- Negotiates and administers engineering and construction contracts.
- Supervises, trains, and evaluates subordinate staff.
- Plans and schedules major citywide annual maintenance projects.
- Performs other related duties as assigned.

GENERAL STANDARDS

<table>
<thead>
<tr>
<th>Data Involvement</th>
<th>Synthesizes or integrates analysis of data or information to discover facts or develop knowledge or interpretations; changes policies, procedures, or methodologies based on new facts, knowledge, or interpretations.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interpersonal/People Involvement</td>
<td>Mentors others by advising, counseling, or guiding them regarding problems that may be resolved by legal, scientific, administrative, or professional principles.</td>
</tr>
<tr>
<td>Reasoning Requirements</td>
<td>Performs work involving the application of broad principles of professional management and leadership to solve new problems for which conventional solutions do not exist.</td>
</tr>
<tr>
<td>Mathematical Requirements</td>
<td>Uses algebra working with such factors as exponents, logarithms, linear and quadratic equations, concepts of analytic geometry, differentiation and integration of algebraic functions, or statistics applying such functions as frequency distribution, reliability, validity and correlation techniques; may use advanced mathematical concepts and models.</td>
</tr>
</tbody>
</table>
### Language Requirements
Reads and interprets professional materials involving advanced bodies of knowledge related to politics, economics, technology, law, or other complex disciplines; writes extremely complex papers and reports; speaks to high level scientific, political, economic, legal, medical or other professional groups.

### Mental Requirements
Uses advanced professional level work methods and practices in the analysis, coordination or interpretation of work of a professional, engineering, fiscal, legal, managerial, or scientific nature and formulates important recommendations or makes technical decisions that have an organization wide impact; and requires sustained, intense concentration for accurate results and continuous exposure to unusual pressure.

### Decisions/Supervisory Control
Makes decisions as almost the entire focus of the job, affecting most segments of the organization and the general public; establishes goals, objectives and policies. Consequence of mistakes is severe.

---

### EDUCATION, EXPERIENCE AND SPECIAL REQUIREMENTS

<table>
<thead>
<tr>
<th>Vocational/Educational Requirement</th>
<th>Requires a bachelor's degree in civil engineering, or a closely related field. Master's degree preferred.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Experience</td>
<td>In addition to satisfying the vocational/education standards, this class requires a minimum of ten years of related, full-time equivalent experience.</td>
</tr>
<tr>
<td>Special Certifications and Licenses</td>
<td>Requires a valid driver's license and a driving record that is in compliance with City Driving Standards. A Professional Engineer license is also required. Depending on position, State and/or City certification(s) may be required.</td>
</tr>
</tbody>
</table>

### AMERICANS WITH DISABILITIES ACT (ADA) REQUIREMENTS
The City of Chesapeake is an Equal Opportunity Employer. ADA requires the City to provide reasonable accommodations to qualified individuals with disabilities. Prospective and current employees are invited to discuss accommodations.

This is a class specification and not an individual position description. A class specification defines the general character and scope of duties and responsibilities of all positions in a job classification, but is not intended to describe and does not necessarily list the essential job functions for a given position in a classification.
