GENERAL DESCRIPTION OF CLASS

The purpose of the job classification (class) is to oversee, manage, and coordinate activities of the Enterprise Systems Management team of the Department of Information Technology. The job class is responsible for staff supervision, training and development, and core enterprise computing and support functions for the City. The job class has budgetary and reporting responsibility as it relates to support and maintenance of the enterprise computing infrastructure. The job class works within broad policy and organizational guidelines; independently plans and implements projects.

TYPICAL TASKS

- Directs and supervises staff including selecting, training, assigning and evaluating work, coaching, counseling, disciplining, and terminating employees.
- Supervises and coordinates team projects requiring testing, corrections, updates, and consolidation of enterprise systems architecture, networks, and databases. Ensures efficient and economical operation to produce a finished implementation for production; assists with task completion as required.
- Performs feasibility studies, total cost of ownership (TCO), and return on investment (ROI) analysis, and prepares Requests for Proposals (RFP).
- Develops and implements plans for new technology, system upgrades, and enhancements to existing systems with input or requirements from other City stakeholders.
- Reports progress of major activities through tracking metrics, execution of reporting requirements, and conducting regular meetings.
- Works with department heads, consultants, City management, City Council, and others to develop project concepts and specifications in the support of new and existing systems.
- Negotiates with outside consultants and vendors; establishes delivery timetables, sets parameters of performance, and assesses quality of deliverables.
- Develops, monitors, reconciles, and reports on project and program budgets and contract specifications, including design requirements and development schedules to all relevant stakeholders.
- Prepares annual business unit budget; oversees, reviews, and approves expenditures for area of responsibility; prepares financial forms and reports.
- Gathers and maintains information to support periodic and special reports documenting activities for area of responsibility.
- Attends or conducts staff and other professional meetings to exchange information.
- Performs other related duties as assigned.
