

Counting everyone in your household can shape your future.

Every 10 years, the United States counts everyone living in the country on April 1, regardless of their nationality or living situation. This includes renters.

To ensure an accurate count, remember to:

Count every person living or staying in your home.

Respond at the address where you were living or staying on April 1, 2020. Census forms will be available mid-March 2020.

What's in it for me?

The 2020 Census is an opportunity to create a better future for our communities and the next generation by providing an up-to-date count of our population. The data collected will help determine how over \$675 billion in federal funding is distributed each year for things like housing assistance, infrastructure, and public transportation.
