

IV. SIDEWALKS AND PATHWAYS

A. Narrative

The success of the Great Bridge Village will lie in part to the constant use of its sidewalks by residents and visitors. The sidewalks will establish pedestrian patterns of use and connection that will contribute to the District’s and Great Bridge Village’s “sense of place” and community.

B. Guidelines

1. Finished surfaces of the sidewalks should be concrete, molded brick, stone, or concrete pavers. Paving patterns should emphasize the spatial elements of the walkway.
2. The finish materials and pattern of the sidewalk should be maintained through driveways, alleyways, and curb ramps.
3. Sidewalk corners should be referenced as a transitional space for a change in paving pattern and material where appropriate.

4. A single brick type and color should be considered for all brick paving patterns developed throughout the Village.
5. Pathways should connect parks and plazas to other public ways.
6. Where pathways must be segmented, provide visual cues – material, pattern, and finish – to tie the segments together.
