

**Division 24: Demolition**

- 24.01 SCOPE:** The Contractor shall furnish all labor, equipment, supplies and shall perform all work necessary for the demolition and removal of all existing pavement structures, obscuring the old roadway, curb and gutter, sidewalk, entrances, and pipe and appurtenances.
- 24.02 EXECUTION:**
- A. All materials are to be disposed of offsite after all necessary permits and property rights have been obtained.
  - B. All removed pipe and demolished structures become the property of the Contractor. Abandoned pipes under existing City streets may be filled with sand and plugged in lieu of removal, if approved by the Engineer.
  - C. Demolition of all structures shall include excavation, demolition and removal, and backfilling with compaction to the original ground elevation.
  - D. Concrete driveways must be saw-cut as straight as possible prior to removal.
  - E. Curb and gutter and any other concrete work designated to be removed must be done so at the nearest construction joint.
  - F. Those construction methods to be used in demolishing the existing pavement structure and to obscure the old roadway must be in accordance with VDOT Road and Bridge Specifications Section 508.02.
- 24.03 MEASUREMENT AND PAYMENT:**
- A. Removal of existing pipe will not be measured and paid for but will be incidental to the lineal foot unit price for the new pipeline installation as per specified in the Unit Price Table.
  - B. All demolished structures shall not be measured and paid as such but will be included in the lump sum price specified in the Unit Price Table for demolition.
  - C. Curb and gutter, sidewalk, entrances and other concrete items shown to be removed in accordance with the construction plans will not be measured and paid for as such but be considered incidental to the several pay items as per the Unit Price Table.
  - D. Measurement of demolition of the existing pavement structure will be based on plan quantities at the locations as shown on the construction plans and paid at the lump sum price specified in the Unit Price Table for demolition.
  - E. Obscuring old roadway will not be measured as such but will be paid based on the lump sum bid price as per the Unit Price Table.
  - F. Incidental to the price for demolition, all voids created by the removal and disposal of items must be backfilled and compacted within the guidelines of Divisions 1.02 (O) and 2.03 (C).
