**GENERAL DESCRIPTION OF CLASS**

The purpose of the class is to perform engineering functions and provide support to personnel in assigned area. The class is responsible for researching and analyzing engineering data, reviewing and designing plans, approving and maintaining related engineering information, and providing assistance with project inquiries and concerns. The class works within a general outline of work to be performed; develops work methods and sequences under general supervision.

**TYPICAL TASKS**

- Researches and analyzes engineering data in order to prepare and update plans and correspondence.
- Reviews and designs plans for public works, utility facilities, water/wastewater management, and/or traffic management engineering projects.
- Completes engineering functions such as inspecting project sites, estimating project costs, and managing the progress of projects.
- Prepares, approves, evaluates, and maintains related engineering reports and other information such as specifications, project invoices, proposals, grant applications, and/or permits.
- Participates in the coordination of project implementation by interacting with the various parties involved.
- Investigates and responds to inquiries and concerns for contractors, staff, the general public, and other organizational agencies.
- Attends or conducts staff meetings to exchange information; attends in-service training and classes, seminars, or conferences to improve professional skills.
- Performs related tasks as necessary such as training and/or supervising subordinate staff.
- Performs other related duties as assigned.
