

XI. TRANSIT STOPS

A. Narrative

Transit stops are an element of the urban fabric which make a community function. They allow residents and visitors to experience Great Bridge Village and the community beyond at their own inclination and not because of its closeness.

B. Guidelines

1. Transit stops should be located near the center of neighborhood stops and institutions.
2. The pedestrian sheds for transit stops should be a 1/4 mile radius from each other.
3. Place transit stops within walking distance of each other and in convenient proximity to parking areas.
4. The design of transit stops, including bus shelters, shall be urbane, well designed shelters. Standard, prefab shelters are not desired.
