CHIMNEY OR VENT CERTIFICATION

The Virginia Construction Code 2012 Edition, § 103.5.1 - Equipment Changes states, "upon the replacement or new installations of any fuel burning appliance or equipment in existing Group R-5 Occupancies, an inspection or inspections shall be conducted to ensure that the connected vent or chimney systems comply with the following:

1. Vent or chimney systems are sized in accordance with the applicable code (IRC).
2. Vent or chimney systems are clean, free of any obstructions or blockages, defects or deterioration and are in operable condition.

Persons performing such changes or installations shall certify to the building official that the requirements of items 1 and 2 of this section are met prior to the issuance of permits.

I hereby certify the following statement to be true:

I, (Print Name) _____, have inspected the chimney
 vent flue liner on ___/___/___ located at _____
and found to be sized, clean, and free of any obstructions or blockages, defects or deterioration
and is in operable condition. The chimney is constructed with without a flue liner.
